JUSTICE AND RIGHT

VOLUME XLVI

GRAYLING, MICHIGAN, FEBRUARY 7, 1924

OSCAR P. SCHUMANN, Editor and Proprietor

NUMBER 6

JOHN A. LOVE LAID TO REST

WAS ONE OF CRAWFORD COUNTY'S OLDEST CITIZENS.

John A. Love passed away at his farm home known as Pleasant Valley Farm, in Beaver Creek township, Tuesday January 29th from cancer of the stomach, from which he had been ill for some time. Although not feeling well he was not taken to his bed until a week previous to his death. The funeral was held Friday under the auspices of Grayling Lodge I. O. O. F. A short prayer service took place at the home and the remains were taken to Grayling, where they were held at Danebod hall conducted by Rev. J. Herman Baughn and Grayling Lodge I. O. O. F. Members of Roscommon lodge officiated as pall-bearers. Interment was in Elmwood cemetery.

John A. Love was born at Lafayette Center, Medina Co. Ohio May 11, 1855. He came to Michigan with his parents, in 1865, settling on a farm in Owosso Township, Shiawassee Co. In 1876 he went to Center Plains township, Crawford Co. and settled on a homestead. In 1880 he was married to Miss Mary M. Duryee, also of Center Plains. To this union was born one daughter known as Mrs. Mary O. Watson, in 1882 at which time the mother passed away.

September 24, 1884 he was married to Miss Henrietta Fuller of Owosso Township, and in the spring of 1888 they moved to Center Plains at which place they have since resided. To this union four children were born. To Mr. Love a great deal of credit is due for the development of Crawford Co. as he always had the community's interests at heart. Coming to Crawford Co. in the pioneer days he travelled from Center Plains to Reed City to file his first homestead claim on section 20, forty miles of which distance was travelled on foot.

He was one of the founders of School District No. 1.

In company with Prof. Taft of Lansing M. A. C. he traversed the northern districts of the state in the interests of Farmers' Institutes. For a number of years he operated a threshing machine throughout the adjoining counties. Using the same machine which was recently purchased by Henry Ford for exhibition.

He was one of the largest stockholders of the Crawford County Telephone Co. and had charge of the building of the south half of the line.

He served fifteen years as township clerk, was Highway Commissioner for two years and member of the Board of Review for several years.

John Love passed to higher life Jan. 29, 1924. Surviving him are his widow, Mrs. Henrietta Love, the following children, Mrs. Mary O. Watson, Mrs. Ruby Beane, Mrs. Frankie Vismaw, Mrs. Minnie Vismaw and William E. Love. Thirteen grandchildren, one great grandchild and two brothers, Frank of Center Plains and Fred of Owosso.

He was a charter member of the Odd Fellows and Maccabees of Roscommon. At the time of his death he was Justice of the Peace and assessor of the school district.

We shall meet but we shall miss him. There will be one vacant chair; We will linger to caress him; When we breathe our evening prayer.

TAX COLLECTOR HERE FEB. 14-15

TO ASSIST TAXPAYERS WITH INCOME REPORTS.

The annual income drive, is now on, and it is purposed by Collector Fred L. Woodworth, of Detroit, to have one of his field deputies visit Grayling, Michigan, before the close of the campaign to instruct taxpayers as to the manner of making returns and render such assistance as they can in the short time that can be spent in each place.

Deputy Collector Ford C. Rea, will visit Grayling, Michigan, on February 14th and 15th, 1924 making his headquarters at Shoppenagon Inn, where taxpayers may meet him. Much time will be saved if figures are carefully compiled and classified as to receipts and expenses before visiting the deputy.

Forms for making reports have been mailed to all those who last year reported for the income tax and these forms should be brought by the collector. Every single person whose income in 1923 was \$1,000.00 or more is required to make a return.

The sense of the world is short. Long and various the report. To love and be loved; Men and gods have not outlearned it; And how oft so'er they've turned it; 'Tis not to be improved.

Emerson.

Basket Ball.

Chew tobacco, chew tobacco!

Chew tobacco, spit

Gaylord High School think their it!

Go to Gaylord Friday, Feb. 8th and

then "Watch our smoke." Both

Grayling boys and girls will play.

Our neighbor and for intent to give

us a "run for the money" so we can

expect a very fast and interesting

game. "Play the game fair."

Grayling High School basket ball

team defeated the highly touted St.

Ignace five at a score of 24-4 in a

one-sided contest. The defense of

the locals held their opponents to

one field goal resulting in a "bang

toms" and their scoring machine

managed to ring in baskets at will.

The St. Ignace team had just defeated

Gaylord the night before 21-18 and

our team expected a hard game.

Next Friday the Grayling five will

take on the Gaylord five at their city

and another hard game is anticipated.

A large local crowd is expected to

attend this game as it marks the

opening of the rivalry between Grayling

and Gaylord high schools.

Our "Bobbies" added another

victory to their list last Saturday when

they defeated the West Branch team

by the score of 35-15. During the

game our opponents crept up close

several times but by our fast work

in the center and guards showing

good defensive and our forwards

with their ability to make baskets all

ways kept the Bobbies in the lead.

Wise and Otherwise.

George G.—"My dog can kick his

weight in wild-cats.

Rufus—"My dog can lick your dog

after he gets through."

The trouble with the modern girl

is that she doesn't know what she

wants but is determined to get it.

Russel Yahr—"Are you a mind

reader?"

Pinkey K.—"Yes."

R. Y.—"Can you read my mind?"

Pinkey—"Yes."

R. Y.—"Well, why don't you go

there?"

Miss Fox—"Do you know what the

little mouse does?"

Helen Z.—"Naw."

Miss Fox—"That's right."

Lipman's long-suffering father—

"Look here, you young good-for-noth-

ing, I'm fed up. Either you go to

work tomorrow, or you tell me how

you manage to slip this out-all-night

stuff over on your mother?"

Nyland H.—"What became of that

cate you and your girl used to hang

on?"

Eddie T.—"She gave it to me."

Carl O.—"My alarm clock went off

at eight-thirty this morning."

Beulah—"Hasn't it come back

yet?"

Benjamin Franklin's Advice:

5. Frugality—Make no expense

but to do good to others or yourself;

1. e. waste nothing.

6. Industry—Lose no time; be al-

ways employed in something useful;

cut off all unnecessary actions.

7. Sincerity—Use no hurtful de-

ceit; think innocently and justly; and

if you speak, speak accordingly.

8. Justice—Wrong none by doing

injuries, or omitting the benefits that

are your duty.

High School News.

Jean MacDonald, popular enter-

tainer and reader, gave a very inter-

esting entertainment Feb. 1. Every-

one who attended report an enjoy-

able time.

There will be a Boy Scout meeting

next Monday in room 44, Feb. 11th.

Frederic School House that Was Totally Destroyed by Fire Tues. Night.

FREDERIC SCHOOL DESTROYED BY FIRE

DEFECTIVE CHIMNEY CLAIMED
AS CAUSE.

Building and Contents Total Loss.
Covered by Insurance.

Fire was discovered breaking thru the roof of the Frederic school building Tuesday night at about 10:00 o'clock and before it could be extinguished the entire building and contents were totally destroyed. A defective chimney was claimed as the cause of the conflagration. The flames were so great that their reflection could be seen from Grayling. This is a serious blow to the citizens of that town as it deprives them of adequate school facilities. Besides the loss of their fine school house, all the furnishings and supplies and pupils' books were burned. The loss is estimated at about \$20,000 and was insured for \$15,000.

A meeting of the trustees of the school was called early Wednesday morning to determine what action should be taken for continuing the school.

This was a practically new school house and was well arranged and fully equipped for twelve grade work and was on the accredited list of the University of Michigan.

CHARLES M. SCHWAB'S TEN COMMANDMENTS OF SUCCESS.

1. Work Hard. Hard work is the

best investment that a man can make.

2. Study Hard. Knowledge enables

a man to work intelligently and effectively.

3. Have Initiative. But's often

deepen into waves.

4. Love Your Work. Then you

will find pleasure in mastering it.

5. Be Exact. Slipshod method

bring slipshod results.

6. Have the American Spirit of

Conquest. This you can success-

fully battle with and overcome diffi-

culties.

7. Cultivate Personality. Person-

ality is to a man what perfume is to

a flower.

8. Help Share With Others. The

real test of business greatness lies in

giving others opportunity.

9. Be Democratic. Unless you feel

right toward your fellow men you

can never be a successful leader of

men.

10. In All Things Do Your Best.

The man who has done his best has

done everything. The man who has

done less has done nothing.

Fresh Fish—Cod, Salmon, Pike

and fresh Herring, and all other

kind of fresh fish on short notice.

All orders delivered. Phone 663.

DUTIES OF A PUBLIC HEALTH NURSE.

(Article by Margaret Squires, County Nurse.)

In this paper I am using material from the September Hygeia and the last number of the Public Health Nurse, as well as indirectly using some things from some of our foremost public health workers.

First I will tell you a story perhaps you heard before: A man lost a cow and started out to find her. He went long way and came to a sign-post which said "Manchester 50 m." He sighed and went on till he came to another which said "Winchester 50 m." Then he gasped. Well if the man has chased her 50 m. and the wind has chased her 50 m. where is she now?

Just so with public health work. Man has chased her, and war has chased her, so she has gone a long way.

It is interesting to glance back over our shoulder and see how far we have come, then forward to the goal, and then collect our forces and go to work.

Public health nursing began with bed side care of the sick, poor, 20 years ago in Michigan. That work was little more than its infancy. Then we thought only of bedside care of the sick. Now it is teaching to keep well. Then we inserted the tracheal tube in diphtheria to enable the patient to breathe and so save his life. Now we offer toxin-anti-toxin to prevent the disease entirely. That is the stride of 20 years. Yet public health has only begun to wake up. We are only beginning to learn the factors in it.

If we go into a home and care for a new baby and instruct the mother in the latest and best methods of baby care—that is very good nursing and far from making that baby a healthy man or woman for there is much before and much beyond this affecting the final product and much yet unknown even by those farthest ahead in the study.

The object of public health is to make America the best citizen in the world by making each citizen the best he or she can be. A chain is no stronger than its weakest link, so the work of the public health nurse is with each and every child. So considering the individual, where does her work begin? Just wherever she finds that individual. If it is a person who is ill and can be relieved that is her job. If it is a patient, say, with pyorrhea and chancrification, she advises him to see the Doctor and Dentist and explains pyorrhea comes from systemic causes and rheumatism from the absorption of poison and heart lesion may result if neglected too long. But this is remedial also, not constructive—for all the result of the disease can not be removed with the teeth.

For constructive work, where she should begin, and does, is with his child in the school. She teaches all that is now known about care of the teeth and proper foods to build strong teeth and prevent pyorrhea. However, to get really good results, she teaches this child in school so that this child's child may have good teeth. That is where she must begin. We do not expect to see the results of our work.

"The teeth", one of our public health men says, "are an index of health." Poor teeth mean something lacking somewhere in the building material or in putting it together.

Posture is also an index of health. It is not a sign of disease or ill health but an indication of something wrong somewhere that if uncorrected will result in perhaps a perfectly healthy looking person but one less strong than should be. To find the cause it is necessary to health habits and etc. The cause may be too little of one thing or too much of another or worry, or fatigue, some slight physical defect.

Given a healthy embryo, correct nutrition in the prenatal state, good birth and post natal conditions, proper nutrition and home hygiene (home hygiene includes more than sanitation—it means environment, control, training, mental atmosphere) this in childhood real live personal interest in effort of the young person and right circumstances of life—not indul-

Entered as second class matter at the Postoffice, Grayling, Mich., under the act of Congress of March 3, 1919.

O. P. Schumann, Editor and Proprietor

THURSDAY, FEBRUARY 7, 1924.

It is reported that considerable complaint was made to the Michigan Central Railroad company for not making a more earnest effort to open the branch lines, especially the Johannesburg branch, after the heavy snow storm of about the middle of January. That line was tied up for six weeks last winter and a repetition of that trouble was not to be desired.

Efforts were made to determine the attitude of the Railroad company in the matter and it was learned that local officers had not received orders to open these branches. While of course there was considerable snow, yet it is known that there were at least two snow plows standing idle in the local yards and it seems that at least some kind of honest effort should have been made to open these important branches. If the company ever expected to get trains over these roads it would seem even to the layman that their only hope would be to do so before the snow had crusted over with ice, when there is no doubt but that they could get thru.

The Railroad company claim enormous expense in trying to keep the lines open last winter, but almost everyone will recall that this was caused by the heavy sleet storms when inches of ice was formed everywhere in contrast with the conditions this winter. This time we have even heard many railroad men remark with disgust about the feeble or almost no efforts that were being made to keep the lines running. We can only thank the State Public Utilities Commission at Lansing for compelling the Railroad Company to get busy and give the people of this region the service that they are entitled to.

When the trains don't run, the mills close down and when the mills close down our men are out of work. Someone has to lose money at such a time like this. The working men can not afford to be out of work. We believe the railroads are still paying good dividends in spite of their occasional losses.

FUNCK SCHOOL NOTES.

We will try to find out what our duty is, what we ought to do, and our duty we will do, whether it is easy, or hard. What we ought to do we can do. (Our code of morals.) Due to the bad weather our percentage of attendance was rather low this month.

Ernst Corwin upon being asked in what stage of life he was in said: "Michigan."

We have adopted some good English slogans for Good English week which comes the 17th. They are as follows: Don't swallow your G's; strangle "I ain't got no's." Please the ear by using good English. Down with bad English and Up with good English.

The seventh and eighth grades are studying "Evangeline" preparatory to eighth grade examination which occurs in May.

We wonder: Why Charles Corwin Jr. was absent from school the first of the month. Why Ernst has dropped his byword "I know but I can't think." Where Miss Hermann keeps the new books she is reading to us.

Vella Hermann—Teacher.

True Indeed. Many a man backs out of wedlock. When he shouldn't. Many more are backed into it. Else they wouldn't.

Unnecessary to Repeat. Wife—John, I'll have to discharge the cook. She uses such dreadful language. Husband—What kind of language, dear? Wife—Well—oh, the same kind you use.—Pathfinder.

Father Makes 'Em. Tutor—Of course, I admit your son is extravagant. But you must make allowances. He's young.

The Father—That's all right! But the more allowances I make the quicker he spends 'em.

When Truth Will Out. Mrs. Eke—Some women can never believe a word their husbands say. Mrs. Wye—Well, I'm not quite so badly off as that—my husband talks in his sleep occasionally.

Stop, Look and Listen. Suburban—I've started riding into town in my car. Got tired of missing the train.

Townley—Well, look out that the train misses you.

Love. Chris—So you and Jack don't speak. What's the trouble? Chris—We had a dreadful quarrel about which loved the other most.

A Remedy. Patient—Doctor, what'll I take to cure my kleptomaniac? Doctor (after deep thought)—Don't take anything, and you'll be cured.

HARD TO TELL

Hoffy called on his friend Outburt and observed that the latter had installed a bowl containing one goldfish. "Ah, you have a goldfish," he remarked.

"Yes," he replied. They smoked a while. Then Hoffy resumed the conversation.

"Does the goldfish know you?" "I cannot tell," responded Outburt. "It makes no sounds, and its tail wagging seems to be for purposes of propulsion only."

INHERITED FEAR

Miss Albatross—Do you know of the Ancient Mariner—that fellow who slew my distinguished ancestor?

Mr. Penguin—To be sure—heard of him all my life.

Miss Albatross—Well, don't you know I never go near a ship for fear that old pirate may still be alive!

A Black Tale.

The Widow Crow found wearing black was quite unbecoming.

She said: "I'll buy some gay things with hubby's life insurance."

Use Discretion.

"I wish to get a divorce from my husband."

"What is the trouble?" asked the lawyer.

"Life with him has too many ups and downs. One day he abuses me, the next he showers me with adoration."

"Um. How long has this been going on?"

"Four years. Have I grounds for divorce?"

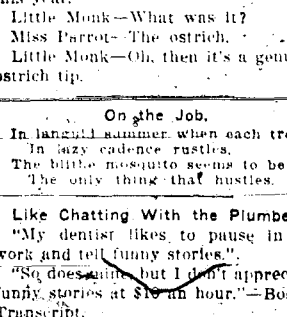

"Of course. But don't come into court loaded with jewels."

Backdoor Etiquette.

"Now, I'd like to know what you want!" snorted the angry housewife as she confronted the tattered stranger standing timidly on the back steps.

"But the dusty one was in no way disconcerted. He considered a moment and then asked mildly: "Well—what have you?"—American Legion Weekly.

AN OSTRICH TIP

Miss Parrot—A friend in the business gave me this lovely plume and the tip that feathers will be fashionable this year.

Little Monk—What was it? Miss Parrot—The ostrich. Little Monk—Oh, then it's a genuine ostrich tip.

On the Job.

In January, summer, when each tree in lazy cadence rustles, The little minute seems to be the only thing that hustles.

Like Chatting With the Plumber.

"My dentist likes to pause in his work and tell funny stories."

"So does mine, but I don't appreciate funny stories at six o'clock."—Boston Transcript.

A Swim on the Green.

Honolulu Paper—The guests enjoyed a basket supper and moonlight swim on the lawn. The dew must be unusually heavy out there.

New Excuse.

Boss—What's the matter with your writing today—new pen, new ink, new kind of paper or— Clerk—No, sir, neuralgia.

A NEWSPAPER MAN'S REPLY

"He who hesitates is lost." "You can always try our lost and found columns."

Where Was the Brain?

He tried to cross the railroad track before a rushing train. They put the pieces in a sack. But couldn't find the brain.

Secondhand Wit.

"He's a witty lad, don't you think?" "Heavena, no! We both subscribe to the same humorous paper."

MIDDLE WEST HIT BY SEVERE STORM

MANY CITIES ISOLATED AS RAIN, SLEET, SNOW TIES UP RAIL AND WIRE SERVICE

DISTRESS CALL SENT BY RADIO

Tornado Sweeps Southern Indiana—Chicago Was Storm's Center—Five States Suffer Most.

Detroit—Telephone communication between Detroit and Chicago was entirely cut off by a sleet storm and blizzard. Chicago was almost cut off from the rest of the country, an official of the telephone company said.

Many wires were down within a radius of 20 to 40 miles about the city. A very little trouble was reported by either the telephone or telegraph companies within the state of Michigan.

Some wires gave way under the strain of the storm, but others were able to take care of the work.

The telephone company officials received reports of heavy snows farther north in the state, but the storm's center seemed to be in and about Chicago.

Many Detroit radio listeners picked up distress calls sent out by WPAI at Waukegan, Wis., which reported a train stalled in the snow near Green Bay, with the passengers suffering from cold and hunger.

The train dispatcher at Green Bay was unable to reach Chicago and appealed to the radio station at Waukegan to summon help.

Minnesota, Wisconsin, the Dakotas, Iowa and Nebraska were the worst sufferers. Minneapolis, St. Paul and other cities in Minnesota were completely cut off.

Rain and sleet were responsible for most of the trouble. Wires sagged and many broke under the weight of the ice and pressure of the gale.

Property damage which it is estimated will reach several hundred thousand dollars was caused by a tornado which swept across southern Indiana.

The tornado, which was followed by hail and rain, swept a path approximately a mile wide, creating destruction in the outskirts of Evansville, Fort Branch, seven miles north and at Haysstadt, 17 miles north.

Lansing—Acquiescing in the state's suit for a judgment in ouster against the corporation of the Interstate House of David at Benton Harbor, formed in 1903, the circuit court has abruptly terminated the first episode of what is expected to prove a long drawn out legal tussle in circuit court here.

By agreeing to the ouster, which means that the house of David no longer has any corporate rights in the state, on the grounds of non-use, the circuit court cleared the way for the next move by the state—namely a petition for appointment by the court of a receiver to wind up the affairs of the Davidites.

It is the contention of H. T. Dewhurst and William J. Barnard, attorneys for the Israelites, that since 1907, when a voluntary association was formed, the corporation has not been used.

The attorneys claim that even if a judgment in ouster is issued, the state is powerless to proceed to take possession of the colony, as all of its corporate property was decided in September, 1907, to the fugitive Benjamin Parnell and his wife, Mary.

It was testified, they have never become members of the voluntary association over which they are supreme in all things, spiritual and temporal.

Convicts Shoot Down Guard

Flee Prison, Make Last Stand in Straw Stack During Blizzard.

Jefferson City, Mo.—Death from the guns of a posse of prison guards ended the lives of the three convicts who escaped from the Missouri penitentiary after killing James Hart, a guard.

In the midst of one of the winter's fiercest blizzards they made their last stand in a stack of straw on a farm five miles southeast of here. After firing the three remaining shots in their revolver at the guards who were surrounding them, they fell riddled with bullets from a dozen or more guns. They died instantly.

Ten or more guards trailed them across a bridge of the Missouri river, into a barn on the farm, which belongs to George Scheppers, and thence onward to the straw stack several yards from the barn.

Old Paper Makes Building Material.

Stockholm—A new building material made from waste paper and designed for ceilings and wall linings has been perfected by a Swedish engineer, and production on a large scale soon will be undertaken.

The raw materials are ordinary waste paper such as accumulates in cities, clay and sulphate lye, the cheapness of which warrants an inexpensive product. The covering is fire-proof and durable; can be applied by unskilled labor, will take paper, paint or stain.

COST OF LIVING SHOWS BIG INCREASE OVER 1913

September Cost Prices Show Advance of 72.1 Per Cent Over the Prewar Average.

The cost of living was one-fifth less in September, 1923, than it was in June, 1920, when the highest point in living costs since 1913 was reached. A decrease of 20.5 per cent in the total cost of living in the United States, as determined by a consolidation of the figures for 32 specified cities, is shown in an announcement issued at Washington by the bureau of labor statistics.

The cost of living, however, was almost three-quarters more than the 1913 average, September costs showing a 72.1 per cent increase over the prewar average. In September a year ago costs were 66.3 per cent above the 1913 average and at their lowest point since December, 1917, but December of 1922 showed an increase.

There was a slight decrease, according to March, 1923, figures, but since that time living costs have been rising slightly.

In the specified cities for which statistics are gathered by the bureau the percentage of decrease in the total cost of living from June, 1920, to September, 1923, was:

Atlanta 21 per cent, Baltimore 18.5, Birmingham 19.4, Boston 20.3, Buffalo 19.5, Chicago 19.3, Cincinnati 20.6, Cleveland 18.3, Denver 19.4, Detroit 21.4, Houston 20.5, Indianapolis 18.6, Jacksonville 21.5, Kansas City 23.5, Los Angeles 12.2, Memphis 17.6, Minneapolis 17.9, Mobile 22.9, New Orleans 15.9, New York 20, Norfolk 22, Philadelphia 18.4, Pittsburgh 18, Portland, Me. 20.1, Portland, Ore. 22, Richmond 18.9, St. Louis 19.5, San Francisco 18.2, Savannah 25.5, St. Paul 17.9, Seattle 20, and Washington 19.1.

The September cost index expenditures, as compared with the 1913 average, show the following increases by items:

Food 49.8 per cent, clothing 78.5, housing 64.4, fuel and light 81.3, furniture and furnishings 122.4, and miscellaneous 101.1 per cent.

In the total cost of living the bureau apportioned 38.2 per cent of the total expenditure for food, 18.0 for clothing, 13.4 for housing, 5.3 for fuel and lighting, 5.1 for furniture and furnishings and 21.3 per cent for miscellaneous.

Boy Sent on Errand Back After 24 Days

Peter Glyn, a New York messenger boy, got back from a little errand. He was sent on it 24 days—no hours ago and he shouldn't have been gone more than the hours intervening from his start until quitting time that day.

Peter was dispatched by Paul D. Crasch, lawyer, to the liner Samaria to deliver a present and the hands of Richard Washburn Child, American ambassador to Italy, who was sailing.

Mr. Child received the present, but Peter liked the ship so well he decided to take a trip himself. He took the cabin next to Mr. Child, which was unoccupied, and traveled first class to Liverpool. When customs officers there asked for his passport he reverted to the status of an American office boy on a prank.

He spent a few days in a Liverpool jail and came back to the United States on the Scythia.

Liberates Pheasants to Restock Flocks

Edward T. Townsend, game warden of Westchester county, New York, has just turned loose 118 full-grown pheasants to replace those shot by hunters while the law was off four days last fall.

The pheasants were distributed under the auspices of the Southern New York Fish and Game association, of which Edward Schirmer of White Plains is president.

Mr. Townsend declared that in the four days the law was off 1,000 birds were slaughtered. The new stock has been turned loose in Cortlandt, Yorktown, Lewisboro, New Castle and North Castle.

\$50,000 Gift in Honor of Former Dishwasher

A gift of \$50,000 to establish five scholarships in Cornell university in honor of the late George C. Boldt, former chairman of the board of trustees, was announced at Ithaca, N. Y., by President Livingston M. Farrand at a dinner dedicating Boldt hall, a dormitory for men. George C. Boldt, Jr., of New York, was the donor.

In making the gift, Mr. Boldt said his father, who began life as a dishwasher in a hotel and later became owner of the Waldorf-Astoria in New York, took a sympathetic interest in education, of which he was deprived.

Girl Would Be Soldier.

Saying that she wished to be with her lover, a soldier, Miss Ellen Clough of Manchester, N. H., tried to join the army. When told that there was no room for a girl, the young woman departed in tears.

Leo Rorabacher, pharmacist at the Central Drug Store left Friday to spend a few days at his home in Traverse City.

Misses Anna Peterson and Evelyn Rood and the former's niece and nephew Helen and Gordon Pond were in Gaylord Saturday.

You want the best in drugs, we cannot afford to sell anything else.
Central Drug Store.

For your Valentine party you will want appropriate invitations, place cards, tally cards, favors, and decorations. Our stock is complete.

Will the party who took the sled from in front of the Anthony Trudeau store one day last week kindly return same to Alfred Galloway.

Vernon, the three months old son of Mr. and Mrs. Ross Barber passed away at Mercy Hospital Monday night after a brief illness. The funeral was held Wednesday afternoon.

Don't forget the basketball game tonight between the local Independents and Onaway at school gymnasium. A good game assured. Dance after game, with music by Schram's Ramblers.

Supervisors Melvin A. Bates of this city and Frank Love of Beaver Creek township are in attendance at the state meeting of supervisors at Lansing this week, as delegates from the Crawford county board.

All former Boy Scouts of Troop 2 and any other boy between the ages of 12 and 17, who wishes to join the Boy Scouts are requested to meet in Room 44 at the High School building, next Monday evening, Feb. 11, at 7 o'clock.

Carl Raymond and Otto Durfee returned Saturday to their home in West Branch after spending a few days at the home of Mr. and Mrs. Adolph Peterson. They also visited Mr. and Mrs. William Brownell at Riverview.

Little Bernard Conklin, who underwent an operation for mastoid at Harper hospital, Detroit, recently, is recovering rapidly from same. Mrs. Conklin and little son came home from Detroit for a few days returning Saturday for further treatment.

Come on scouts of Troop 2. Attend the meeting at the High School building in room 44 at 7:00 next Monday evening. Any boy between the ages of 12 and 17 who is not a scout, but wishes to become one is also asked to attend the meeting and register for membership.

A crowd of young folks started on a sleigh ride for the Cassidy cottage at Lake Margrethe Monday night, during the bad snow storm that was raging and went but a short way when they decided to turn back. On their return they were invited by Harold Schmidt to go to his home to spend the evening. A fine pot luck lunch was enjoyed.

Fred Moggo has been seriously ill at his home but is much improved.

Clair Cameron of Kalkaska visited his mother Mrs. Elizabeth Cameron and family over Sunday.

Carl W. Peterson, Jeweler. Greeting cards for every occasion at Carl W. Peterson's, Jeweler.

Canned vegetables at reduced prices all next week at The A. & P. Store.

The ladies of the Bridge club spent a very enjoyable afternoon with Mrs. Holger Peterson Saturday. Mrs. Robert Rangan held the highest score for Bridge.

Attend the Valentine social at Danebod hall, Friday, February 15th. Valentine social, Friday February 15, at Danebod hall.

Francis Jane, infant daughter of Mr. and Mrs. Midge LaMotte passed away at their home Friday-February 1st. Burial took place on Saturday.

The Woman's Home Missionary society will meet at the home of Mrs. P. G. Zalsman Wednesday afternoon, Feb. 13th at 2:30 o'clock. All members are urged to be present.

James McDonald returned Saturday from Lansing where he has been taking a four weeks course in poultry raising. Mr. McDonald expects to go into the poultry business about April 1st.

St. Valentine's evening at Shoppington Inn, you will enjoy a game of cards with the Goodfellowship club as hostesses. This will be given for charity and fifty cents an individual will be charged. Come!

E. & G. soap 10 bars for 40c at The A. & P. store.

Grayling Independents vs. Onaway would be Northern Michigan Championships, at School gymnasium Thursday night, Feb. 7, and Independents vs. Bay City Juniors, a fast semi-professional team, Sat. night, Feb. 9.

George Burke received a carload of new Ford cars first of the week. Among the assortment are sedans and the popular "Tudor" closed cars. He reports that orders are coming in fine and is apprehensive that he will not be able to get all the cars he can sell.

Prosecuting Attorney Merle F. Nelson is in Bay City last week to act as counsel for Isaac Gendron who is under arrest for violation of the prohibition law and is being held in federal court. Gendron waived examination and is out on bonds pending the convening of Federal court.

All of Michigan seems to be enveloped in a snow blizzard, and Grayling is getting a pretty fair share of it. Towns along the Michigan Central railroad south of here seem to be getting the lion's share, as are also the region between Gaylord and Wolverine north of here. All trains have been late for the past two days and Tuesday all day trains were cancelled entirely. Snow continued to fall all day Wednesday, but at that time there was but little wind and the temperature registered only about 8 to 10 above zero. It is estimated that there is about two and a half feet of snow on the ground at the present time, and more coming.

Capt. Hardin Sweeney was in the city Monday and Tuesday visiting his parents, Mr. and Mrs. Jas. Sweeney and to bid farewell to his friends before returning to his post in Boston. He has been enjoying a four months furlough from his duties in Uncle Sam's regular army, which time he has spent principally with his parents here and his wife's parents, Mr. and Mrs. Rulla Brink at Bay City. Mrs. Sweeney is still at the latter place and will remain until April when she will drive their auto back to Boston. Capt. Sweeney is a former Grayling boy, a graduate of Grayling school, and an erstwhile printer's devil at the AVALANCHE office. He says he likes the military service and expects to continue in the American army.

The entertainment given by Jean MacDonald at the school auditorium last week Friday night met with enthusiastic approval. This was given under auspices of the Senior's Redpath entertainment course, and was scheduled for January 26th, but owing to the blocked train traffic, had to be deferred. The change in the dates and the short time in which to advertise the new date kept many away. Miss MacDonald was exceptionally clever in her character and dialect stories and wealth of wholesome fun and humor. And we are sure she enjoyed her visit here quite as much as the people enjoyed her, for she found an old friend and school mate, Mrs. Oscar Hanson, and had a fine time renewing their old friendship. While here she was entertained in the Hanson home.

Grant Shaw, head operator at the local Western Union telegraph office and M. C. R. ticket agent, closed up his affairs at that place Tuesday morning, said goodbye to his co-workers and that night left for other parts. Just where he was going he kept strictly to himself. He would not even tell a news reporter where he was going nor say how long he would be away, however he promised that one of these cold, wintry days we would receive from him a bouquet of flowers that had been grown out-of-doors. We tried to guess where he was going—Florida, California, Alabama, South America and every other imaginable warm weather clime, but he was as mum as an oyster—just wouldn't tell a thing, and nobody about the depot seemed to know any more about his destiny than we did. He seemed to be as happy as tho he was going out on a bear hunting trip. Here's hopin' we get those flowers, anyway. Mr. Lewis, W. U. relief operator is taking his place at the keys during his absence. Our line of Valentines for both old and young is new and up-to-date. Carl W. Peterson, Jeweler.

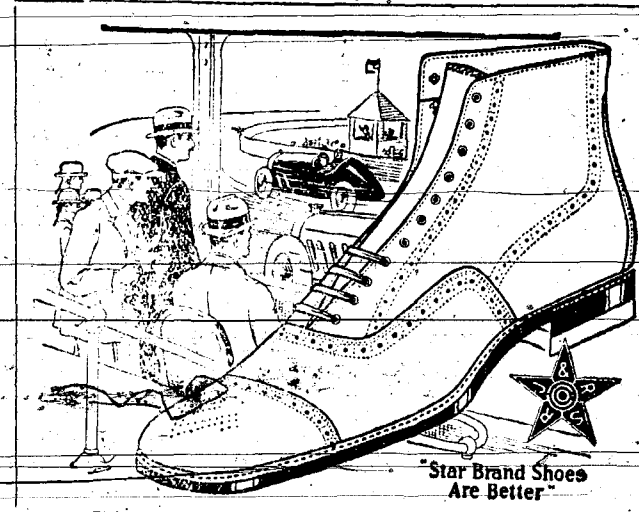

New Spring Oxfords

New Spring Strap Pumps

The new styles in ladies spring footwear. A most comprehensive showing of the newest lasts and combinations for early spring wear. Beautiful styles in cross straps, cut-out and oxfords. Colors are grey, brown and black, and also two-tone effects. All new style of heels are shown.

Grayling Mercantile Company

The Quality Store

Mrs. B. E. Smith is ill at her home.

Miss Coletta Smith spent Sunday at her home in West Branch.

Don't miss our canned vegetable sale next week at the A. & P. Store.

Our four part feature section containing chapters of our serial story, "The Red Lock" and illustrated features of interest, failed to arrive this week and probably are stuck in some snow bank between Grayling and Detroit. This has made it necessary to publish but four pages this issue instead of the customary eight. Undesired circumstances such as we have had to endure in the way of weather for the past week compels us to make the best of everything and be satisfied. We trust this will not have to occur again, for we do not like to send out an abbreviated edition.

PASSION PLAYERS BAY CITY FEB. 14

ONLY MICH. CITY OUTSIDE OF DETROIT THEY VISIT.

Bay City Chamber of Commerce is offering the chance to see and hear the three leading characters of the famous Passion Players of Oberammergau. Sixteen of this company, in order to save their village in Bavaria, arranged an American tour of nine of the principal cities, spending one week in each. After considerable negotiations, the Bay City Chamber of Commerce was able to secure the three leading characters for one day, Thursday, February 14th. Those who will appear are Anton Langs the Christus, Andreas Lang the St. Peter and Guido Mayr, the Judas.

The two hour program, including moving pictures of the Village of Oberammergau, will be presented in the afternoon and again at night. This is entirely a charitable proposition, the Oberammergau players to get all the proceeds of the visit. The seating capacity of the Central High School, where these appearances will be held, is 1200 and tickets are limited to that number for each of the engagements. Tickets can be secured at the Chamber of Commerce office for \$1.00 each, either afternoon or evening. We believe they have done the Northeastern section of Michigan a service by securing this engagement as this will be the only place in Michigan they will be seen with the exception of Detroit.

Another Pioneer Citizen GONE TO LAST REWARD.

Mrs. Neils Johnson of Maple Forest died Saturday, February 2nd.

Mrs. Neils Johnson died here last Saturday afternoon. The funeral service was held Tuesday afternoon conducted by Rev. Kjolhede at the Danish Lutheran church. Interment was at Elmwood cemetery. The following acted as pallbearers: Laurits Rasmussen, Olaf Sorenson, J. H. Cook, Ernest Richardson, Rasmus Jorgenson, Nils H. Nielsen. Her age was 75 years, two months and five days.

Margie Kristina Johnson was born in Denmark. She came to Grayling in 1880, and was the widow of the late Nils Anderson Johnson. Before locating in Maple Forest where they purchased the property known as the George Howse farm they resided for seven years in Dana, or what is now Lovells. Mrs. Johnson was the mother of three fine sons, Anton of Grayling, Nels T. of Wayne, Mich. and Sverine of Frederic, one

brother, Nels K. Thompson of Kansas City, all of whom were in attendance at the funeral. One daughter Mrs. Alma Johnston passed away a couple of years ago. Others in attendance at the funeral were Mr. and Mrs. Nels T. Johnson of Wayne, Wm. H. Johnston of Detroit and a granddaughter of the deceased, Mrs. Raymond Papendick and daughter of Detroit. Besides the above relatives the deceased is survived by twelve grand children and one great grand child.

Mrs. Johnson was one of Crawford County's respected pioneer citizens and for many years, with her husband, enjoyed many years of usefulness and influence in their home community, Maple Forest township.

Fresh Fish—Cod, Salmon, Pike and fresh Herring, and all other kinds of fresh fish on short notice. All orders delivered. Phone 663.

CARD OF THANKS.

We hereby tender our heartfelt thanks to our friends for their kindnesses to our mother and aunt, Mrs. Neils Andreas Johnson, shown during her last years of feebleness and illness. It is with the kindest of feeling that we here express our warmest gratitude.

N. T. Johnson and Family, Andrew Johnson and Family, Severine Johnson, Mary Smith, Oscar Smith.

CARD OF THANKS.

We wish to express our thanks and appreciation for the beautiful flowers and many acts of kindness shown by friends and neighbors during the illness and death of our loved one. Especially do we thank the Brother Odd Fellows and singers. Mrs. Henrietta Love and family.

"You'd think it was expensive ceramic tile"

"MY UPSON-Fibre-Tile always keeps spotlessly white, clean and beautiful. Not like the ordinary imitation tiles—that crack, test, loosen, crumble or yellow!"

"Its waterproof surface is enameled like wood, and it is so strong, stiff and hard that it will last for years. Cheap imitations cannot give Upson service."

"My Upson-Fibre-Tiled kitchen and bathroom cost only one-tenth as much as real tile."

Avoid rough, soft, spongy imitations. They haven't half as many years of life as Upson, and cost much more to enamel. The little difference in price cannot measure the big difference in quality. Phone us for sample and detailed information.

FARM BUREAU NOTES

R. D. BAILEY
County Agricultural Agent

LIVESTOCK LEGUMES LIMESTONE MEAN PROFITS IN FARMING

Money-Making Idea Number 12.
Get a Cigar.

Call at the County Agent's office and ask for a copy of "Feeding Hints for Dairywomen," a milk record sheet, for weighing the milk of ten cows, morning and night for one month, and you will get a good cigar.

Offer closes last day of February.

Milk for the Family.

A great authority on food says: "Good health demands plenty of milk. It supplies the body with necessary materials in exceptionally healthy and economical forms. An abundant supply of pure milk is of national importance."

Use Milk. Use It Freely.

A quart a day for every child is not too much, and each should have at least a pint. Plenty of milk gives your children the chance for health they ought to have. It helps them to grow, to keep well, and to build strong, vigorous bodies. Grown-ups, too, will find it wholesome and desirable, while in old age, with the need for simple fare, milk is commonly and largely depended upon. Wholesome, readily digested, and containing valuable nutritive material, milk is greatly depended upon in the diet of the sick and the convalescent.

A mother having the responsibility of the development and nourishment of an infant should use a quart of milk a day in order to meet this additional physical demand.

Use Milk for Strong Bones, Teeth and Muscles.

Milk gives us protein for building muscles and other body tissues. It also gives us calcium (lime), which is needed for our bones and teeth, and for other body uses.

Protein and lime are also important in repairing our bones and muscles and other body tissues which are used and replaced as a result of normal wear and tear of our bodies. Well-developed muscles and strong, well-formed bones and teeth are just as essential for a strong body as good materials and good construction for a well-built engine. Strong, healthy teeth are not only signs of health, but they also resist decay.

Milk Should Not Be the Only Food.

Fruits, vegetables, cereal grains and their products, as well as eggs, butter, and limited amounts of other wholesome fats, should be used to form a well-rounded diet for young children. Milk should not be omitted when meat and other flesh foods are added to the diet as children grow older.

Milk furnishes two-thirds of the lime in the meal shown above. Lime is one of the things which food must supply. Without it sound bones and teeth cannot be formed.

Avoid excessive use of sweets, as they tend to lessen the appetite for other foods.

Milk Helps You Grow and Keep Well. Recently it has been found that in addition to the substances we have long been familiar with, certain foods including milk, contain other substances necessary for normal growth and development. These are commonly called "vitamines." Unless our food supplies them, underdevelopment and illness will result, which may become serious or fatal if the deficiency is long continued. It is generally believed that if fat-soluble A, one of the vitamins, is lacking, growth is checked and liability to serious eye diseases and other infections and diseases is increased. If water-soluble B is not supplied, body development is hindered and diseases develop more easily. A lack of the third vitamin, water-soluble C, may be a cause of scurvy and some of the common infections to which teeth are subject.

Milk is rich in fat-soluble A (particularly whole milk, cream, and butter), and it also supplies some water-soluble B; and fresh milk, especially, contains some water-soluble C. Here are added reasons for considering milk an important food for all, but particularly for babies and for growing boys and girls.

Use Clean Milk.

For health's sake it is important that milk should be fresh, clean, and wholesome. If you produce your own milk, see that the cows are healthy and clean. Keep the milk clean, cold, and covered.

If you buy milk, be sure that it is clean. Your board of health can help you in this. If you are uncertain of your milk supply, it is safest to use pasteurized milk.

Milk is a Good Food for All.

A baby will double and often treble its weight in six months with no other food. Almost every one likes to drink milk; but it is more than a beverage—it is an efficient food.

Use All Dairy Products.

Milk, butter, cheese, buttermilk, and ice cream. Use them as part of the regular meal, not merely as an addition to it. Milk and its products are among the best foods we have.

Milk is an Economical Food.

It requires no time for preparation, and there is no waste in the form of parings, cores, or bones. It is a complete food in early infancy, and should be used freely by children and grown-ups.

DUTIES OF A PUBLIC HEALTH NURSE.

(Continued from first page)

gence but the things that are best, we should and usually do get the ideal product, a real American. And a nation in which this product predominates will make America all that her fathers desired she should be.

We have hitched our chariot to a star—we need to hang on.

I have told you where public health nursing begins and what its aim is, but I have not told you about what it includes and that is my task tonight and it cannot be completed, for the work includes all that bears on health—much of which is not yet fully known. "The more we know, the more we do not know."

I will try to give you just a few points.

If we wish to develop a prize fruit we first select perfect seed; we plant it in perfect soil, get all we can about its cultivation from those learned in this subject. Then we watch it grow, prune and train it and study the plant itself and see if we cannot outdo our instructors by developing a prize fruit better than any yet produced.

For a prize animal or human we must go about it in the same way only in the case of the human we must remember he has mental and moral as well as physical, and that is what complicates our job as infinitely. We are now well beyond "bug-beds" and even beyond thinking that control of contagion is all. We are coming to understand that it is the building of the body to resist disease that is more effective in preventing it, than trying to control it. And having gone that far we are now stepping out on a more newly learned fact, that the body alone is not all, but the mind has very much to do with the health. And now we are standing quite firmly on this fact; we see another ahead, which is moral health. We may term it religion and include social or even it social and include religion but it is the moral side of the human his inner self. We know now that all three must be taken into consideration in order to have health. We are not bodies, we are individuals. (Just how this is to be done we are still searching for further facts and experiences.)

All men are born equal, viz., with equal rights to life and the pursuit of happiness—which includes health but they are not born with equal physical, mental or moral strength and it is the nurses' job to help them reach the highest possible point in recent medical magazine, health is not only physical, but also mental and social. One's teeth are more dependent on what one's mother eats during pregnancy. The child must be taught he cannot possess himself of everything at his desire but must respect the rights of others and not only acquire for himself but help his group to acquire and to possess in common with them. We have in school boys so full of animal energy, they don't want to study, but if, as in manual training, they can vent their physical energy in studying, they love it and grow mentally, morally and physically. Again referring to the article: "Moreover neglect of the mental is so common in dealing with disease and deformity that the school needs to be aware particularly of this tendency in the physical examination. Medical inspection—too frequently, just medical inspection leading to no practical end—has in many places succumbed to the efficiency ideal. "This" method gives no opportunity to enlist the co-operation of the child, to tap those great reservoirs of energy that the normal boy and girl possess, toward accomplishment. To train and to become fit for worthy and significant objectives known and in part set up by themselves, is a quality characteristic of youth.

In health supervision every effort should be directed at enlisting the co-operation of the home. The parents should be present at the examination of their children. Because 90 per cent of what we wish to accomplish in health habits takes place in the home, it is evident that parental co-operation lies at the basis of effective health work."

Margaret Squires
Public Health Nurse.

(To be continued next week.)

Glycerine Mixture
Prevents Appendicitis

Simple glycerine, buckthorn bark, etc., as mixed in Adlerika is excellent to guard against appendicitis. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gasses and poisons. Brings out matter you never thought was in your system. Slaves Masters at Festival.

The Saturnalia was an old Italian harvest festival, during which time slaves dressed up in their masters' clothes, and were waited upon by them.

REGISTRATION NOTICE

To the qualified electors of the Village of Grayling, State of Michigan:

Notice is hereby given that in conformity with Act 126, Public Acts of 1917, the undersigned Village Clerk, will, upon any day except Sunday and a legal holiday, or the day of any regular or special election or official primary election, receive for registration the name of any legal voter in said Village not already registered who may apply to me personally for such registration, or who may make application for registration by mail or messenger, as provided by Act 7, Public Acts of 1919, except that I can receive no names for registration during the time intervening between the Second Saturday before any general or special election or official primary election and the day of such election.

March 1, 1924, last day for general registration for election March 10th. All electors not already registered and intending to vote at said election, should make application to me on or before the 1st day of March, A. D. 1924.

Notice is further hereby given that I will be at Court House, County Clerk's office, on February 23, and March 1st, 1924, from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of reviewing the registration and registering such of the qualified electors in said Village as shall appear and apply thereto.

The name of no person but an actual resident of the precinct at the time of registration and entitled under the constitution, if remaining such resident, to vote at the next election shall be entered in the registration book.

Chris Jensen,
Village Clerk.

VILLAGE CAUCUS

The qualified voters of the village of Grayling will meet in caucus at the Court House in said village on Friday, February 15, at 8:00 o'clock p. m., standard time for the purpose of nominating Village officers and for the transaction of such other business as may lawfully come before the meeting.

Following is the list of officers to be nominated: one President, one Clerk, one Treasurer, one Assessor; three Trustees for full term; Trustee to fill vacancy for one year. The Village election will take place Monday, March 10.

Dated Feb. 1st, 1924.

By Order of Village Committee.

TIPS FOR TAXPAYERS.

In making out his income-tax return for the year 1923 the business man, professional man, and farmer will be required to use Form 1040, regardless of whether his net income was or was not in excess of \$5,000. The smaller form, 1040A, is used for reporting net income of \$5,000 or less derived chiefly from salary or wages.

All items of gross income must be reported. In the case of a storekeeper gross income usually consists of the gross profits on sales, together with income from other sources. The return must show the gross sales, purchases, and cost of goods sold.

The professional man, lawyer, doctor, dentist, must include all fees and other compensation for professional services. The farmer must report as gross income the proceeds of sale or exchange of products raised on the farm and the profits from the sale of products purchased by him and resold. He must also report gross income from all other sources.

Taxpayers, in order to take full advantage of the deductions to which they are entitled, are advised to study carefully the instructions on the forms under the head "Income from business or profession."

OUT OF THE GLOOM.

Many a Gloomy Countenance in Grayling Now Lights With Happiness.

A bad back makes you gloomy. Can't be happy with continual backache.

The aches and pains of a bad back are frequently due to weak kidneys. Doan's Pills are recommended for weak kidneys.

So Grayling citizens testify: Ask your neighbor!

Mrs. Peter F. Jorgenson, Grayling, says: "My back ached all the time and it was hard for me to do my housework. When I did the least bit of work, sharp pains darted through my back and I suffered a great deal with lame back. I was tired, nervous and all run down and worried so much I became depressed and irritable. I had dizzy headaches and black specks passed before my eyes. My kidneys were weak and irregular in action and I couldn't sleep well at night. I heard of Doan's Pills and purchased several boxes at Lewis' Drug store and they cured me in splendid way."

Glycerine Mixture Prevents Appendicitis

Simple glycerine, buckthorn bark, etc., as mixed in Adlerika is excellent to guard against appendicitis. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all gasses and poisons. Brings out matter you never thought was in your system. Helps any case gas on stomach in TEN minutes. By all leading druggists.

Slaves Masters at Festival.

The Saturnalia was an old Italian harvest festival, during which time slaves dressed up in their masters' clothes, and were waited upon by them.

A Story of Success

How Studebaker Cars became leaders

145,000 people last year paid \$200,000,000 for them

THE most talked-about cars among fine cars are the Studebaker Sixes—at \$975 and up.

Sales have almost trebled in the past three years. The demand for these cars, growing by leaps and bounds, has been Motordom's chief sensation.

Over \$200,000,000 was last year spent for Studebaker models.

Now we wish to explain, to all who are interested, the reasons for that success.

Studebaker has always led

For 72 years the name Studebaker has stood for quality and class.

Studebaker equipages, in the carriage days, held premier place. The White House owned them in the days of Grant and Harrison.

Now we make motor cars only. But the Studebaker name in this modern field, simply had to maintain its prestige.

We had the money, we had the incentive—we who now control. And our one ambition has been to maintain the Studebaker place.

\$90,000,000 assets behind us

Studebaker assets are \$90,000,000. We have \$50,000,000 in modern plants and equipment.

Not old plants re-adapted. We have spent \$32,000,000 in new plants in five years. We have equipped them with 12,500 up-to-date machines.

Over \$8,000,000 was spent on drop-forged plants alone. Another \$10,000,000 on body plants, to maintain our prestige in coach building.

We believe that no other plant in the country is so well equipped to

build quality cars as Studebaker.

Engineering—\$500,000 yearly

We created an engineering department which costs \$500,000 yearly.

There are 125 skilled men there who devote their time to studying betterments in cars. They make 500,000 tests yearly.

There is a department of Methods and Standards. They decide and fix every standard in these cars.

We spend \$600,000 yearly to machine all surfaces of crank shafts, just as in Liberty Airplane Motors. That is the reason for that perfect balance, that absence of vibration.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in America. The Light-Six more than any competitive car within \$1,000 of its price.

Open cars have real leather upholstery. They cost \$25 more per car than imitation leather.

Our closed cars have Chase Mohair upholstery. This is made from the soft fleece of Angora goats. And a Sedan requires from 15 to 18 yards.

Velour for this upholstery would save us up to \$100 per car.

Note the finish of every detail. Mark the infinite care. They add 25% to labor cost on luxurious closed bodies.

Note the completeness of our larger closed cars. The nickel-plated bumpers, the extra disc wheels, and cord tires, the steel trunk, the courtesy light, etc. Think what they would cost you, bought as extras.

Thus we have made the Studebaker the leader of quality cars. We have built a demand exceeding 145,000 cars per year.

Learn the results of these efforts, in fairness to yourself. Don't buy a car at \$1,000 or over without knowing what we offer.

Compare the parts and details. Mark the advantages we offer—scores on scores. Our experience is that 95% of those who do that buy a Studebaker car.

Learn why 145,162 bought Studebakers in 1923

Studebakers held the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.

Learn why all these buyers preferred Studebakers.

Our factories employ 1,200 inspectors, to make 30,000 inspections on all Studebakers cars. Few flaws, few mistakes can escape them. That, we believe, is the finest organization ever devoted to motor car building.

The price of quality

On some steel alloys for vital parts we pay 15% extra to get them exact.

MORTGAGE SALE.

Whereas, default has been made in the payment of the money secured by a mortgage dated November 9, 1921, executed by James L. Baer and Emma Baer, his wife, to James W. Robinson, of Alma, Mich., which said mortgage was recorded in the office of the register of deeds of Crawford County, in liber H of mortgages on page 345, on November 15, 1921; and

Whereas the amount claimed to be due on said mortgage at the date of this notice is \$292.91 of principal; interest and taxes and attorney fee provided by law, which is the whole amount claimed to be unpaid on said mortgage; and no suit or proceedings having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof; whereby the power of sale therein contained has become operative.

Now, therefore, notice is hereby given, that by virtue of the said power of sale and pursuant to the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the courthouse in Grayling in said County of Crawford, on Saturday, April 5, 1924 at 10 a. m., which premises are described as follows: The southwest quarter of section four town twenty five, north, range four west, Crawford County, Michigan.

Dated, January, 9th, 1924.
James W. Robinson,
Mortgagee.
